Muirstead Farm - We have been raising Dexter Cattle since 1993, a true dual purpose heritage breed (can be used for milking and/or beef) that is in "watch" status from ALBC. They are a very intelligent and docile breed. We have a 20+ cow/calf herd. If you're interested in a house cow, give us a call; if you're interested in tasty, lean meat we sell it by the half in late summer - place your order now! We also raise grass fed sheep: We have 2 flocks. One registered Wiltshire Horn - we have one of 6 flocks in the USA. They shed a real wool fleece - the other flock is non registered cross bred hair sheep. We do rotational grazing - in fact we are passionate about grazing. Our animals are pasture May through Oct, then on hay. In the winter the male Dexter eat grass balage. No Growth Hormones!
